March 16, 2017 PDF | The process of assessing the risk of extinction of Colombian marine fish and the development of the Red Data Book of Colombian marine fish have been carried out. February 12, 2016 | by Gilbert Rehmann, The Extinction Risk Assessment (CRS) process for Colombian marine fish has been completed. An attempt was made to determine that there are endangered species in Colombia and to develop guidelines for listing rare and endangered species on Colombia's list of endangered species. As a result of these two activities, the "Red Book of Colombian Marine Fish" was created, which will help protect these species.
