Green Nature For Windows

Green Nature theme is the simplest new window decoration for your computer. At this place you will find an all green place to relax and take a picture. Our scenery is all designed for a calm environment where you feel the joy of nature. Green nature is in harmony with everything. Green Nature is a new and unique theme designed for the simple PC users and is not recommended for any complex computer environment. Green nature theme has settings for the color of your desktop wallpaper, the font color and the background color. Green nature theme allows you to select between eight different desktop wallpapers, the actual nature image can be up to 3045x2880 and resolution 1667x966. Your wallpaper is adjusted to be centered and matched to the current desktop color. Green Nature allows you to choose between three different desktop backgrounds, the customizable Free Fall wallpaper, and the full screen backgrounds containing all the things you might love to see in nature, vegetation, sky, rivers, lakes, mountains, oceans, etc. Green Nature is an amazing theme. The views are extreme, but the backgrounds are smooth and rounded, giving the place a crisp and clean feeling. There are eight backgrounds, three backgrounds are being displayed on your screen at a time. If you want to see all three you would have to move your cursor to the right. If you want to see all of the backgrounds you have selected then you

would have to move your mouse to the bottom of the screen. The images are simple yet beautiful, the basic colors of nature are bright and make your computer screen feel like you were really out in the open by the lake or the forest. The font is a very simple and easy-to-read font, but this theme has a very vivid color. All of the background wallpaper images are watermarked, and the theme allows you to select from eight different wallpapers, including the FALL FALL WALLPAPER, the ALL WALLPAPERS (free fall, all backgrounds and so on). What's New In?

This Win 7 desktop theme creates a breathtaking impression of nature. The theme is based on the wild and otherworldly theme that inspired its name. A color scheme of lush greens, deep autumnal reds and earthy browns is set against a dramatic palette of soft pastels. This wild and lovely desktop brings to mind an idyllic forest or a secluded mountain retreat. The overall mood is of calm and serenity – reminiscent of quiet forest walks and a long, lazy weekend in the sun. I like it, it looks like a nice, peaceful theme. If you like nature, and the sense of peace it can give you then you might like this Win 7

theme. Green Nature will use an all green landscape for your desktop, to take you in a place without cars, pollution or unbearable noise.
