**What's New in the?**

Gantt Chart Light (VCL) is a component for the creation of task based Gantt charts. Gantt Chart Light is a high performance and light-weight Gantt Chart component for WPF and Silverlight. Gantt Chart Light allows to achieve the same look and feel as Microsoft Office® 2007. Gantt Chart Light is designed for developers that are seeking a light weight component to build task based Gantt charts. Gantt Chart Light provides drag and drop to drag and drop tasks from the Gantt Chart Light component into a standard Gantt Chart control. The component supports dragging tasks and dependencies from a standard Gantt Chart component into the Gantt Chart Light control. When you use the drag and drop from one component to the other you can also use the same tasks properties as the standard Gantt Chart control.
